ABOUT
DEVAK FOODS

THE PERSON BEHIND THE VISION

Jyot Poojara I Founder & Director

An FMCG professional turned entrepreneur, Jyot Poojara brings extensive experience in sales, distribution and brand building, with professional exposure to PepsiCo, Godfrey Phillips, Marico and Hindustan Unilever.

His understanding of the Indian FMCG market and its consumers led him to establish a food business built around a simple philosophy — quality products, authentic taste and strong distribution.

Today, through Devak Foods and Deeplite Foods, his vision is to build trusted Indian food brands that bring traditional favourites to consumers in a modern, hygienic and accessible format.

From the market to the manufacturing floor, the focus remains the same — Quality. Trust. Taste.

THE PERSON BEHIND THE OPERATIONS

TEJAS POOJARA - Director

With a background in Engineering, Tejas Poojara brings a combination of technology, supply-chain expertise and operational management to Devak Foods and Deeplite Foods.

His role focuses on strengthening the company's manufacturing, procurement, supply chain and technology-driven business processes, with an emphasis on efficiency, consistency and scalability.

With a structured and technology-oriented approach, he works towards integrating systems, data and processes across the organisation—from raw-material procurement and production planning to inventory management and distribution.

Working alongside the company's leadership, Tejas contributes to building a strong operational foundation that enables the organisation to scale efficiently while maintaining consistent quality and reliable supply.

“Technology creates the systems; people and processes turn them into results.”
